

7/8" to 7/8" weather protection GSIC EasySeal™ clam shell enclosure | 123-154-7 | 123e.com

Part Number: 123-154-7

EasySeal™ is a resealable weather production device with a mechanical hinge. Main uses are cable connections to antennas, radios, or cable transitions. EasySeal™ saves time and money by allowing the installer to access a cable connection for sweep testing between points and then can be quickly resealed. No need to spend time cutting off messy tape or the expense of adding new tape when a connection needs to be checked.

CROSS REFERENCE

Alternative To	WPS-5
----------------	-------

PHYSICAL SPECIFICATIONS

Mating Cycles	200
Outer Diameter	7/8 inch to 7/8 inch
Jacket Material	PC/PP Alloy Black UV resistant

ELECTRICAL SPECIFICATIONS

Inner Construction	Silicon Gel
--------------------	-------------

ENVIRONMENTAL SPECIFICATIONS

Operating Temperature	-40 C° / + 65 C°
Weather Standard	IP68
