

**Braided Low Loss 1/4" Black PE Jacket Cable|SA240| 123e.com**  
Part Number: SA240

SA240 is a high-performance, low-loss coaxial cable in the RG8x category, offering excellent signal transmission with minimal loss. It's a reliable alternative to leading industry brands, including CommScope® WBC-240, Andrew® CNT-240 and Times Microwave Systems® LMR-240.

This is sold in 1,000ft Spools.

## CROSS REFERENCE

Alternative To      CommScope® WBC-240, Andrew® CNT-240, and Times Microwave Systems® LMR-240

## ELECTRICAL SPECIFICATIONS

Capacitance	79 ± 3pF/m
Frequency Range	6GHz (31 GHz cut off)
Impedance	50 ± 3 ohm

## ENVIRONMENTAL SPECIFICATIONS

Operating Temperature -40C to +85C

## PHYSICAL SPECIFICATIONS

Bend Radius Single	19.10 mm
Dielectric Material	Foamed Polyethylene
Flexibility	Standard
Inner Conductor	Solid Bare Copper
Outer Conductor	1st = Bonded Aluminum Foil 2nd = Tinned Copper Braid
Jacket Color	Black
Jacket Material	PE
Outer Diameter	1/4in (6.10 mm (± 0.10mm))
