

N Male to N Male Armored RG142 RF Jumper | 123-ARG142NMNM-XX | 123e.com
Part Number: 123-ARG142NMNM-XX

N Male to N Male Armored RG142 factory made jumper.

N Male to N Male Phase Stable RG142 Armor jacketed cable MADE IN THE USA. RG142 cables offer a high quality low cost solution for field test and measurement applications where phase stability is a necessity. This cable can also be used for indoor DAS projects. These assemblies can be made to meet your custom needs with various lengths and combinations of connectors, as well as optional strain relief. All of our RG142 cables contain a solid inner core with an outer shield, providing superior stability and connectivity. Each cable is thoroughly tested before leaving the factory to ensure the highest quality possible. Armored RG142 cables are the perfect choice for field test cables which must be crush resistant.

PHYSICAL SPECIFICATIONS

Connector A	N Male
Connector B	N Male
Outer Diameter	0.346 inches (8.8 mm)
Jacket Color	yellow
Jacket Material	Armored PVC

ELECTRICAL SPECIFICATIONS

Frequency Range	up to 3Ghz
Impedance	50 Ohm
PIM	< -170dBc
Voltage Rating	Max Operating Voltage: 150 V RMS

ENVIRONMENTAL SPECIFICATIONS

Operating Temperature	~-20°C to +85°C
RoHS Compliance	Yes
