

4.3-10 Male 1/2" Superflexible solder center solder body connector | 123-2HMS | 123e.com

Part Number: 123-2HMS

The **4.3-10 Male Solder Center Connector** is designed for 1/2" Superflexible Helical cables, providing a secure and reliable connection for high-performance applications. This connector is specifically intended for factory installation onto 123eWireless' 123-2-50 cable and other manufacturers' 1/2" super flexible cables, including Commscope FSJ4-50 and RFS SCF12-50J. Featuring a solder center and solder body, it ensures a stable, low-loss connection ideal for demanding RF environments.

Bullets:

- **4.3-10 Male connector** with solder center and solder body for 1/2" Superflexible Helical cables.
- **Factory-installed** on 123eWireless' 123-2-50 cable and compatible with other 1/2" super flexible cables, including **Commscope FSJ4-50** and **RFS SCF12-50J**.
- **Secure and reliable connection** for high-performance RF applications.
- Designed for **low-loss signal transmission** in demanding environments.
- Ideal for **factory installations** requiring precise and durable connections.

CROSS REFERENCE

Alternative To	FSJ4-50B
