

Easy Wrap Self Amalgamating Weatherproofing Tape, 3/4 IN x 15 FT, Black | 123-150-34-BLACK | 123e.com

Part Number: 123-150-34-BLACK

Product Description:

This high-performance insulating tape is designed for reliable sealing and protection in communication cable connection. It delivers exceptional waterproofing and corrosion resistance, making it a go-to solution for outdoor installations and harsh environmental conditions.

Key Features:

- **Waterproof and Weatherproof:** Ensures secure, long-lasting protection against moisture and environmental exposure.
- **High Tear Resistance:** Durable construction withstands demanding conditions.
- **UV and Ozone Resistant:** Maintains integrity even under prolonged outdoor exposure.
- **Wide Operating Temperature Range:** Functions reliably from -40°F to 230°F (-40°C to 90°C).
- **Highly Conformable:** Easily molds to irregular surfaces for effective sealing.
- **Easy Removal:** Flexible design allows for hassle-free application and removal when needed.

Applications:

- **Outdoor RF Cable Assembly Installations:** Provides dependable protection for communication systems.
- **Wireless Communications:** Ideal for sealing collars, closures, and drop wire splices.
- **Environmental Protection:** Shields cables from corrosion, weather, and moisture damage.
- **Insulating and Sealing:** Perfect for sheath build-up, auxiliary sleeve construction, and thermal dissipation of splice heat.

This insulating tape fuses layers together to create a water-resistant barrier, ensuring long-term performance in even the toughest outdoor environments.
